Repainting.

Paint has no protection against the elements, and climatic changes work hard and fast upon it. The best paint will eventually wear down, and the surface will have to be repainted. But when Pure White Lead and Pure Linseed Oil are used the surface is left smooth and free, all ready for the painter to begin his work.

If, on the other hand, a hard, lifeless, inelastic paint (such as zinc and barytes) has been used, it cracks, peels and wears off unevenly, leaving a scaly surface, necessitating the expensive and dangerous process of burning off before satisfactory repainting can be done. To paint with cheap paint is to repaint at high cost, and too soon. Those who use

COLLIER

Pure White Lead  
(Made by the Old Dutch Process)

repaint seldom and at lowest cost.

Send for a booklet containing several handsome reproductions of actual houses, offering valuable suggestions for a color scheme in painting your home. A test for which purity is also given.

Clark Avenue and 10th Street, St. Louis, Mo.

Love, the Magician.  
Love is the great magician, who alone can work miracles. It lives on through out all change, fitting itself to altered circumstances, and triumphing in the end over fate, over death itself.

Spain's Royal Palace.  
The Escorial, Spain's royal palace, contains a cathedral, a monastery, two colleges, three chapter houses, three libraries and nearly 3,000 apartments in addition.

Need of System.  
The waste of time is not always due to a lack of brain power or energy or ambition. It is just as often due to the lack of system.—Exchange.

Spanish Wedding Ceremonies.  
Marriage in Spain takes place during the day or night according to the position in life of the young people. If well-to-do, the ceremony occurs early in the morning.

Cure for Stuttering.  
A volunteer in a Colorado regiment at Manila has been cured of stuttering by being shot through the throat by a Mauser bullet.

Value of Strabismus.  
A Kansas cross-eyed man was approached by a medical fakir, who proposed to straighten his optics for a small sum. "No, sir," said the cross-eyed man. "I don't want 'em straightened. The fact is there are so many people trying to work one on some scheme or other that a man needs to be able to look both ways at once in order to keep them from getting the advantage of him."—Kansas City Journal.

POLK STREET TO BE CLEARED

City Council, In Special Session Tuesday, Passes Ordinance Prohibiting Vehicles Standing On Main Thoroughfare.

The city council convened in extra session Tuesday, for the purpose of considering the passing of an ordinance to prohibit wagons, buggies, carriages and other vehicles from standing on Polk street, and also to discuss the sidewalk matter. All the officers, with the exception of Alderman W. L. Thompson, who is out of the city, were present, as well as a number of citizens.

Promptly at the appointed hour of three o'clock Mayor Miller called the body together. The roll call and the reading of the minutes of the previous meeting, as is usual in the special sessions, was dispensed with, and the first business was in regard to putting in a fire plug near the ice plant. Mr. A. Davidson in behalf of such, appeared before the body and asked that a plug be put in near the plant, as at present there was really no protection to any of that property. There is a plug but a few hundred feet away which could be used, but for the fact that it is across the railroad tracks. The matter was discussed at length and finally referred to the fire and police committee to investigate, and report at the regular meeting of the council. The ordinance relating to Polk street was then taken up, and after a considerable airing from almost every point of view, was passed. A committee from the Commercial Club was on hand, and presented argument in favor of the ordinance, stating among other things that it was their belief that nearly all of the business men of the city were in favor of taking every vehicle off the main business thoroughfare.

No serious objection to the proposed city law was offered, the only question of import being, "can such be enforced." All of the law makers were in favor of either making a clean sweep or letting it pass entirely, so the former was adopted.

The ordinance, while in some respects it may seem stringent, will, according to those who expressed themselves, soon be learned by all effected, who will get the habit of hitching at other places. The object of this ordinance, as stated by one of the Commercial Club committee, is not to work a hardship on any one, nor is there in view any class of people, but it is for the convenience of all. The sprinkling wagon, which has been on but a few days, is a valuable asset to Polk street, but it is hampered in its good work, very much, on account of that street being congested with vehicles almost the entire day. Hitching posts are to be put in convenient places, and a number of business men have taken it upon themselves to direct the people who come to their places of business the locations until they become familiar with them. The proposition of putting in side walks came up at this stage for a good share of attention from the council, and the verdict was to aid everyone as far as possible in doing this. Every move in this direction is to be encouraged by the city fathers, and all assistance possible at the hands of the street commissioner, will be given. In connection with this, it was stated that the ladies of the Civic League had taken up the work and had several things in view, which, if carried out as is desired, would be a great aid in the work.

To The Public.

On and after July 1st all customers not running an account through the office will please make arrangements to pay for goods on delivery, as we have had to pay for all such bundles up to the present when left without the cash. As we do not feel that we are able to carry your accounts we are forced to ask for cash settlement. Thanking you for past favors and hoping you will appreciate the position we are placed in, we are,

Yours truly,

Corked or Tin Capped

BETTER THAN GOLD

LAND BARGAIN EXTRAORDINARY

IN THE CELEBRATED TEXAS PANHANDLE—THE IOWA OF THE SOUTHWEST

FINEST CLIMATE IN AMERICA. COOL, DELIGHTFUL, INVIGORATING SUMMERS. WINTERS WARM, DRY, AND FULL OF SUNSHINE. RICHEST SOIL ON EARTH; 3 TO 7 FEET DEEP; DARK, SANDY LOAM ON LIME STONE FORMATION, VERY SIMILAR TO THE FAMOUS BLUEGRASS BELT OF KENTUCKY; FULL OF HUMUS AND EASILY TILLED.

We own 65,000 acres 100 Sections of this choice level Prairie land in a solid body located in Farmer County, within 11 miles of Bovina, Texas, a station on the through line of the Santa Fe Ry. from Chicago to Los Angeles, Calif. The Santa Fe has recently surveyed and been granted a charter to build a cut-off from Texico to Brownwood, Texas, which when completed will give the shortest route from the Pacific to the Gulf, San Francisco to Galveston. It is expected this road will be completed and trains running within two years. The final survey has been made and runs through this land for seven miles, making it contiguous to two great trunk lines of railway.

This land has grown too valuable for ranching purposes, although we have about 6,000 steers on it at present time. After much thought and deliberation we have decided to offer one-half of it for sale, believing that the value of the remaining half will be more than doubled by the influx of population. Not less than one quarter section or 160 acres will be sold to one buyer. There is no choice between different parts of this land; one acre is just as good and no better than any other acre. It is all cream, and considered the very choicest location in the Panhandle.

Good farming has already demonstrated that this land will produce 40 to 50 bu. of Indian corn; 20 to 35 bu. of wheat; 30 to 40 bu. of oats per acre favorable years; kafir corn 35 to 50 bu.; German millet 2 to 4 tons per acre; milo maize 25 to 40 bu.; sorghum 3 to 5 tons per acre; cow peas 20 to 30 bu. and 2 to 3 tons of hay per acre; alfalfa 2 to 4 tons per acre, and cotton from 1/2 to 3/4 bale per acre. Johnson grass and all other forage plants yield enormous returns. We believe it is the coming fruit country of America: peaches, pears, plums, apricots, apples, cherries, raspberries, dewberries, blackberries, strawberries, grapes, and many other varieties of fruits and berries grow to perfection. Apples grown in this climate have a delicacy of flavor not found elsewhere. Every variety of vegetable that grows in the Middle West thrives here. Said to be the finest watermelon and cantaloupe country on earth, Rocky Ford, Colo., not excepted.

An unexcelled stock country for cattle, hogs, sheep and horses. Peculiarly adapted to stock farming. This land can be made to pay from 8 to 10% interest net on \$100 per acre valuation one year with another by simply raising alfalfa, kafir corn and hogs or sheep, all of which thrive, hogs being practically immune from cholera in this climate.

Never failing veins of the finest water from 100 to 150 feet from the surface, pumped by wind-mills. Native grasses grow luxuriantly and are very nutritious and fattening. All kinds of live stock thrive on them the year around without other feed.

The land owner will be the monopolist of the future for no more is being made and population is increasing by leaps and bounds.

This country offers unrivaled opportunities to investors who wish to double, treble and possibly quadruple their money within the next few years. A net work of new railroads now building and being surveyed insures a large increase in population. A rush of immigration has already set in, very similar to the wave which settled South Dakota a few years ago.

TOPOGRAPHY—A beautiful, level plain, gently undulating in places, sometimes called "The Grassy Wilderness." The last cheap, level, rich land left in this country is in North-West Texas.

We unhesitatingly affirm that this sale offers the chance of a life time to those wanting choice, level, rich land for a home, for investment or for speculation. Price \$10.00, \$11.00 and \$12.00 per acre, according to location, improvements and distance from railroad, of which \$2.00 per acre cash, balance on 25 years time; 5% annual interest, notes to read "on or before" and can be paid off and taken up at any time.

"Opportunity knocks once at every man's door." A hint to the wise ought to be sufficient. Buy a section of this land, make the small payment necessary, and keep the interest paid up a few years and it will likely make you independent for life. Excursion rates over all railroads every first and third Tuesday in each month, round trip ticket from Chicago to Bovina, Texas, only \$25.00, very low rates from all points in the Middle West. We will arrange for a private car from Chicago to Bovina for parties containing eighteen or more. "Seeing is believing," and when you see this country you will ask yourself "Why is it not worth as much as Central Illinois?" Preserve this ad, for it may mean gold dollars to you and yours. We advise quick action, for this extraordinary bargain will be gone while you hesitate.
